

Changes to Examination Scheduling

The Structural Pest Control Board (Board) can no longer accommodate special requests to take the Field Representative and Operator examination on a particular day or time. Testing information and examination schedules are posted on the Board's website at www.pestboard.ca.gov. Candidates are encouraged to visit the website and plan for these examinations accordingly. Effective March 2008, all Field Representative and Operator examinations will be automatically scheduled.

Examination times and location may be revised upon receipt of a written request from a candidate upon a showing of good cause. Good cause means medical hardship, bereavement, jury duty, or a similar event, which precludes attendance at the automatically scheduled date and time.
